

Blueprint Table ELA/Literacy Grades 6–8 Estimated Total Testing Time: 4:00 (with Classroom Activity) ¹						
Claim/Score Reporting Category ²	Content Category ³	Stimuli		Items		Total Items by Claim ⁴
		CAT	PT ⁵	CAT Items ⁶	PT Items ⁷

3. Speaking/Listening	Listening	3	0	9	0	9
4. Research	Research	0	1b	5	3	8

¹ All times are estimates. Actual times may vary.

² Each student receives an overall ELA/literacy score and four claim scores or subscores reported at the individual level.

³ For more information on content categories, see the Content Specifications document at <http://www.smarterbalanced.org/smarter-balanced-assessments/>.

⁴ Total number of items is not necessarily equal to weighting by claim.

⁵ Each student receives one PT, which includes a set of stimuli on a given topic. A Classroom Activity will be conducted for each PT to help orient students to the PT context. For PT stimuli 1a and 1b, the same set of stimuli is used for the Writing (1a) and Research (1b) items.

⁶ The CAT component of the test includes machine-scored items and short-text items. Two short-text items in Reading and one short-text item in Writing are designed for hand-scoring and may be AI scored with an application that yields comparable results by meeting or exceeding reliability and validity criteria for hand-scoring.

⁷ Each PT includes two short-text research items and one machine-scored research item with one full write that is scored across three traits: Organization/Purpose, Evidence/Elaboration, and Conventions. The short-text items and the full write are designed for hand-scoring and may be AI scored with an application that yields comparable results by meeting or exceeding reliability and validity criteria for hand-scoring.

⁸ For the purpose of this table, Writing PTs are noted as three separate “items”; however, the Writing PT score is derived from a single student response scored on three distinct traits.

⁹ Total Items by Claim for Claim 2 includes 10 CAT items and 3 items from the PT as described in footnote 8.

¹ For more information on assessment targets, see the Content Specifications document at <http://www.smarterbalanced.org/smarter-balanced-assessments/>.

² DOK: Depth of Knowledge, consistent with the Smarter Balanced Content Specifications.

³ The CAT algorithm will be configured to ensure the following:

For Claim 1, a student will receive no more than 4 items at DOK 1 and at least 3 items at DOK 3 or higher.

For Claim 2, a student will receive at least five items at DOK 2 or higher, at least one of which will be DOK 3 or higher.

For Claim 3, a student will receive at least four items at DOK 2 or higher.

For Claim 4, CAT items are DOK 2 for all grades.

⁴ Each student will receive at least one literary long passage set and up to two additional short passage sets.

⁵ For the Reading Literary long passage set, each student will receive at least one item from Target 2 and at least one item from Target 4. If a machine-scored item is selected from Target 2, then a short-text item will be selected from Target 4. If a short-text item is selected from Target 2, then a machine-scored item will be selected from Target 4.

⁶ Each student will receive at least one long informational passage set and up to two additional short informational passage sets.

⁷ For the Reading Informational long passage set, each student will receive at least one item from Target 9 and at least one item from Target 11. If a short-text item is selected from Target 9, then a machine-scored item will be selected from Target 11. If a short-text item is selected from Target 11, then a machine-scored item will be selected from Target 9.
