

THE CIRCUIT

A David Douglas Staff Feedback Loop

What is The Circuit?

Earlier this year, District staff had the opportunity to respond to a brief, pulse-check survey. This survey was designed to get your general input about what the District does well, and where we need improvement.

An area that employees felt we could most improve is in listening to your input and acting on it. The Circuit is a direct response to that.

This is not a newsletter. It is a two-way communication tool. While we will drop some updates around the edges, each monthly issue will be built around asking for your input on one, very specific issue or question.

Going forward beginning next month, this space will be devoted to responding to that feedback. We will summarize what we heard from you and communicate any actions that were taken as a result.

Don't want to wait a month for results? [Visit The Circuit webpage](#), where we will be posting results as they come in and describing responses to those results. We will also archive all issues of The Circuit at this page, which you can find beneath the Employees drop down menu on our website.

Please kick us off by responding to this month's Rapid Poll.

RAPID POLL OF THE MONTH

**CATEGORY:
HEALTH AND WELL-BEING**

Last month, our schools reopened for in-person instruction, bringing staff and students back into our buildings. In the context of COVID-19, do you feel safe in our buildings? Are there specific steps you think we can take to make them safer? [Take this 30-second Rapid Poll.](#)

**The Rapid Poll will close on Friday,
May 7th at 5pm.**
