

Every Student Belongs

Guiding Values

1. We are all responsible for keeping schools safe.
2. Every student must feel like they belong.
3. Racist symbols cause harm to all and prevent students from being able to access their education.
4. That means adopting and implementing policies that promote welcoming schools, full equity and inclusion, and standing up against racism.
5. Communication and education are key non-punitive responses.
6. It is important to address racism as a systemic problem.
7. All are entitled to discrimination/harassment-free schools.
